

Full Accreditation for Dalyellup Family Medical Centre.

On the 2nd March 2022 a survey team from the Australian General Practice Accreditation Limited (AGPAL) conducted a site survey on the Practice against the Royal Australian College of General Practitioners (RACGP) 5th Edition Standards. After a review of the Practice's accreditation application and survey report, and based on the level of compliance demonstrated by the Practice on the day of the survey, AGPAL has made the **decision to accredit Dalyellup Family Medical Centre for the next 3 years to 25th May 2025.**

What does this mean for you?

From reception staff to the Practice Manager; from the Practice Nurses to the Doctors; there is an entire team of people working together to ensure you get the best quality health care.

This means:

- *Your Practice knows who you are, cares about your health needs, educates you and respects your privacy*
- *Your records are checked and maintained by the appropriate clinical team members*
- *Your Practice stays informed about current quality health care*
- *Your practice continuously looks at ways to improve*
- *Your Practice is committed to your health care*

We also

- *Implement security measures to keep your medical records safe*
- *Our medical instruments are sterile to ensure safety from infection*
- *We keep vaccines at the right temperature so they work the first time every time*

And

- *That we meet the Royal Australian College of General Practitioners (RACGP) 5th Edition Standards.*
